THE ULTIMATE EXPERIENCE

*A tribe marked by their survival,
teamwork and tradition ... a people at
one with their environment ... as sure
of their past as they are their future.
A tribe synonymous with success ...
these are the great Masai of Kenya*

And so the mystery unfolds ...

*Raising children is a communal
affair for the Masai.*

*The elders share tales of wonder,
the women nurture souls while the
fathers offer protection with lessons of
the land and its potential dangers.
Children grow up carefree and safe,
the savannah for a playground,
young warriors filled with life.*
